The Sub-Assistant Surgeon,
I/C, Stae Dispensary,
Savanur P.O.
Dharwar Dt.

Dear Sir,

With reference to your letter of 8th inst., the ordinary subscription is Rs.14/- per annum for Assistant surgeons and Sub-Assistant Surgeons whose monthly income including allowances, is under Rs.300/- we make a special concession and supply it at Rs.8/-. If you are entitled to the concession please remit the amount or advise us to send the first number by V.P.P. charging the amount.

Yours faithfully,
Thacker Spink & Co.

Roy/-.

No. 7 1920

To,

The Dewan
Savanur State
Savanur

Sir,

You were kind enough to consent to my request for having a medical magazine for the dispensary, in order that we may get information up-to-date.... I am sending herewith a letter from the Company, who are willing to give us the magazine at a reduced rate.

In the budget there are 100 Rs. for the purchase of "Books & forms" & there is ample balance left to defray the cost of this magazine "Indian medical Gazette".

I therefore request the favour of sanction & an order to pay Rs 8/ in cash to enable me to send the same by money order as desired by the Company.

13.11.20

I have the honour to be
Sir,
Your most obedient
servant

Divan Savanur

Savanur 15/11/20

No - of 1920
Return with compliments

Yes: it was coming from the Dharwar Civil Hospital as the dispensary was under the Civil Surgeon's control. As it is now solely under the control of the State, I think the magazine should be subscribed for. It is a good reference magazine & gives all matters that are going on in the new medical world.

No. 313 of 1920

The dispensary is not now under the control of the Civil Surgeon, so it would be better to order the magazine independently.

The monthly is an useful one & it would be a good reference book for all times. It need be kept in volumes, bound up in cloth. If therefore requisitioned the sanction may be given.

JK Kulakar.

Inchargen Capt Nawabzahel
O.B
Sawanur.

Sir,

I had been on my round in the town this morning with the S.I.

(1) The ditch just behind the Laskar Bazar road near the house of Motiram Kalal ought to be filled up as early as possible. muddy dirty water is standing to the depth of about 4 to 5 feet. This would be a good nidus for mosquitoes.

(2) The masonary, in front of the High School, of the road side gutter has come down in two three places. Repairs but may be undertaken early in order to prevent further damage.

(3) The Roads were not swept properly. Cowdung & filth was seen at many

places, which was got removed or cleared.

There is no epidemic disease of any kind. Plague at Bankapur & the surrounding villages is not showing any signs of an increase.

I beg to remain

2 Mr. Ramrao Diwan Savanur

3 " K. V. Hulsogi Head master High School } do—

4 " Bhimacharya Pleader

5th " Abdul Manwar Khan Biradar nawab

All the registers were examined irregularities found therein have been noted and the attention of the Sub Asst. Surgeon has been drawn to them.

There are 4 in patients. Three of them are from neighbouring British Talukas. The 4th patient belongs to this place. They are properly looked after by the Sub Asst. Surgeon.

The average attendance of patients is 92 which has improved rather than the last year. The dispensary is kept quite clean together with its premises.

Infection ward and parapete wall require repairs badly. this year if provision made for current repairs would allow.

Sir,

I had been on my round in the town yesterday. The General Sanitary condition of the town is good & there is no epidemic disease of any kind.

The operations against rat destruction have been undertaken; The Vice President, the Chairman municipality & myself had a discussion about many the rat-destruction work, very successful.

Instructions have been given to the S.I. to kill the rat by dipping the traps in water & afterwards getting the dead rats buried. They can be easily burnt, but that would be more expensive.

JKBundela 28/6/20 — Dy. Director

Duties of Dispensary Committees and their relations with Govt. and Govt. officers.

The affairs of every dispensary for which Govt. give a grantinaid shall be supervised by a dispensary committee appointed by the taluka local board or municipality to whose management such dispensary is subject, or in the case of any dispensary not subject to the management of a taluka local board or of a municipality, by the commissioner concerned or in Aden by the Political Resident.

(1) The Dispensary committee shall maintain supervision over the conduct of the dispensary, reporting any neglect of duty, inefficiency or misconduct on the part of the medical officer to the Collector through the civil Surgeon

(2) They shall keep an account of the receipts and disbursements of the dispensary in such form as may from time to time be prescribed for all Government-aided dispensaries by the Surgeon General

(3) They shall inspect every month the Registers of the daily expenditure of wines and spirits and of receipts on account of Hospital fees. They shall inspect & check, after the 1st April each year, the Register of deadstock, offering a certificate that they have done so. The inspection of medicines & surgical instruments & of professional and medico-legal records or documents forms no part of the duties of the Dispensary committee. They shall be open to inspection by the Surgeon General, the Sanitary or Deputy Sanitary commissioner & the civil Surgeon

(4) They shall hold a meeting at the dispensary at least once a month and shall record the results of their inspection in a book to be kept for the purpose

(5) A copy of the proceedings of each meeting shall

shall be sent to the Civil Surgeon for information.

(6) The Civil Surgeon shall report to the Collector for action any matter which demands attention.

(7) The committee shall depute two of their number to visit & inspect the dispensary at least once in each month.

24. (1) The appointment promotion or increase in pay, suspension & dismissal of, and grant of leave to all dispensary servants except members of the Medical Depart who are under the control of their departmental superiors, shall rest with the committee, but no increase or decrease of the establishment will be permitted without the previous sanction of the Surgeon General.

(2) The appointment of a compounder proposed by a Dispensary Committee shall be subject to the approval of the Civil Surgeon. After appointment the compounder shall be under the control of the committee in the same way as the other dispensary servants referred to in 24 (1).

(25) Casual leave to assist Surgeons and sub assist. Surgeons incharge of dispensaries will be granted by Civil Surgeons of their Districts in the Presidency proper, & by the Principal Medical Officer in Sind and by the Civil administrative Medical Officer in Aden. In cases of extreme emergency, it may be granted by the President of the Dispensary Committee, intimation being sent at once to the Civil Surgeon, or in Sind or Aden to the Principal Medical Officer, Sind, or the Civil Administrative Medical Officer, Aden, respectively.

26 (1) No expenditure shall be incurred which has not been previously estimated for and sanctioned by the Civil Surgeon in a monthly estimate, which shall be prepared under the orders of the Dispensary Committee. But a Dispensary Committee may, without the previous sanction of the Civil Surgeon,

purchase with the funds at its disposal warm clothing, additional medicines and extra furniture in cases of emergency or in unforeseen circumstances rendering desirable the immediate obtaining of such articles. Any expenditure so incurred must, however, be reported without delay to the Civil Surgeon.

(2) All pay & travelling allowance bills of Govt. servants and estimate & contingent bills shall in the Presidency proper be forwarded to the Civil Surgeon for countersignature before being paid, and in Sind or Aden to the Principal Medical Officer, Sind, or the Civil Administrative Medical Officer, Aden, respectively.

(27) Provided the expenditure has been regularly estimated for and approved by the Civil Surgeon, the details of repair estimates may be dealt with by the Dispensary Committee. Plans and estimates for additional buildings or for alterations to existing ones which do not involve medical deviations from the standard plans can be sanctioned by the Collector on the advice of the Civil Surgeon, others must be submitted to the Surgeon General who will deal with them himself, if the estimated cost does not exceed Rs 5000. The approval of Government is required to all works costing over that amount.

(28) Every Dispensary Committee in the Presidency proper shall render to the Collector, through the Civil Surgeon, annual accounts as soon as possible after the 31st March prepared & signed by the Medical Officer on and according to a printed form to be obtained direct from the Superintendent, Yeravada Prison Press, Poona,

Poona on an indent accompanied by a remittance. The civil Surgeon shall be responsible for a careful scrutiny of the accounts & when submitting them to the Collector shall take what action may be necessary as to any discrepancies that may be found, & if they are of a very important nature bring them, through the Collector, to the notice of the Surgeon General, who will refer such cases as may be necessary to Govt. In Aden the accounts should be submitted to the Civil Administrative medical officer at the station.

(29) whenever the surplus balance with any Dispensary committee appointed by some officer of Govt. empowered in this behalf exceeds Rs. 500/- and there is no immediate prospect of its being required for current expenses, it should not be allowed to lie idle but should at once be invested in Govt. paper. It will be at the option of municipalities and Dist. Local Boards to so invest their surpluses dispensary balances or to merge them in the general balance.

(30) It is desirable that every Dispensary committee should endeavour to lessen the cost of their dispensary to Govt. & to the local or municipal fund by obtaining donations subscriptions or gifts towards a Dispensary Endowment fund. The object of such a fund is to accumulate a capital sum the interest of which only shall be used for the expenditure of the dispensary and which, as it increases will gradually render the dispensary independent of Govt. and all other aid.

Correspondence how to be conducted

(31) on medical matters the medical officer in charge of a dispensary should address his communications to the Civil Surgeon in the Presidency proper, and in Sind and Aden to the Principal medical officer, Sind, and the Civil Administrative medical officer, Aden respectively. On all other matters the Chairman of the Dispensary committee or the President of the municipality or Local Board concerned according as the dispensary is private or managed and maintained by a municipality or local board, should write to the collector.

Inspection of Dispensaries

(32) Every Government-aided dispensary shall be open at any time to inspection by the Revenue commissioner, the Sanitary Commissioner, Deputy Sanitary commissioners, Dist. Revenue officers and the Civil Surgeon of the district. It is incumbent on Civil Surgeons to visit every dispensary in their district once a year. The Sanitary Commiss. & Deputy Sanitary Commissioners are expected to inspect dispensaries while they are on their tours.

33 (1) Inspecting medical officers shall report to the Surgeon General fully on the conduct & qualifications of the Assist. Surgeon or the Sub Assist. Surgeon in charge and on the successful working or otherwise of the dispensary, adding such suggestions as they may think it advisable to offer. The reports of the Civil Surgeons & of the Deputy Sanitary Commissioners in the Presidency proper shall be submitted direct to the Surgeon General, a copy being sent to the Collector; those of the Civil Surgeons & of the Deputy Sanitary commissioner in Sind or of the Civil Surgeon, Aden, shall be submitted to the Surgeon General through the Principal Medical officer, Sind, or the Civil ~~Surgeon~~ Administrative medical officer, Aden, as the case may be, a copy being sent to the Collector or the Political Resident, Aden, as the case may be.

(2) Any remarks which other inspecting officers may wish to make should be transmitted to the Surgeon General through the collector and the commissioner concerned, or at the political resident, Aden, as the case may be. A copy of such remarks should be sent to the Civil Surgeon for information.

True copy { medical officer

No 696 of 20

Memo:-

The Medical officer, Savanur is requested to submit his proposals for the formation of the Dispensary Committee again as some of the members are either dead or unwilling to be members.

The Committee is not held since a long time. So it is necessary in the interest of the institution to hold meetings either to inquire into the complaints or to make any improvements.

It seems that a correspondence on the matters was going on. But it is not forthcoming. The Medical officer should please try to trace the Correspondence from his office records as the same is not traced here.

No. 113 of 19
Dated 15/7/19
DISPENSARY

From

The Medical Officer I/c
State Dispensary, Savanur.

To

The Diwan of Savanur State.

Sir,

In compliance with the Huzur order No. 591 dated 7th July 1919 regarding the division of Stores I have the honor to state that the work of division of Medical Stores has been taken in hand and will be completed soon. For keeping these medicines apart a separate big cup board is required which may kindly be provided. I have the honor to be,

Sir
Your most obedient servant
Medical Officer I/c State Dispensary Savanur
